

Safety & Dignity for Women,
Adolescent Girls & Young People

CAMEROON

HUMANITARIAN ACTION FACT SHEET JANUARY 2017

After leaving her husband, 17-year-old Faouzia is training to become a tailor with the help of a UNFPA partner organization that helps girls learn income-generating skills. Read more about Faouzia's story at <http://www.unfpa.org/news/new-rules-help-end-child-marriage-cameroon>. ©UNFPA Cameroon

Cameroon continues to face several humanitarian emergencies, including a nutrition crisis and an influx of refugees fleeing from political instability and insecurity in neighboring countries. With the second highest number of internally displaced people in the North Africa region and increasingly overpopulated refugee camps, it is especially critical that women have adequate access to health and safety services. UNFPA provides sexual and reproductive health (SRH) services and works to prevent and respond to gender-based violence (GBV).
